Integration of PhonePe Payment Gateway

Step 1. Log in into your website dashboard.

Step 2. Go to the 'plugin' option mentioned at your left hand side

Step 3. Select 'add new'. Then type in the search box 'PhonePe Payment Solution'

Step 4. Install the PhonePe plugin and activate it.

Step 5. Go to the settings in woocommerce option. And click on payment option.

Step 6. There will be a list of payment gateways. There will be phonepe Option. Click on 'setup' opp to Phonepe Option.

Step 7. You have to fill the merchant id mentioned as per your production credential mail.
Then there will be Salt key index option.
Your salt key index is 1.

Then go to your production credential mail and open the attachment. There will be salt key mentioned in 2nd line.
Copy that salt key and paste in the third box at your dashborad.

Select prod environment just below that.

Then save the changes.
